To Whom It May Concern:

In February of 2004 construction was completed on our 25,000 square foot building. We have now been in our building for over two years and could not be any happier with our building and the entire experience. Doug Stevens and his team at Stevens Construction were great to work with and made the process a positive one.

There is no doubt that when the day comes to add on to our building who we would have do the job. We highly recommend Stevens Construction to anyone who wants a quality building built by professional organization.

Best Regards,
